

Experience 3D Hotel TV for the first time

Take in-room entertainment to the next level by bringing the 3D experience from the cinema to the hotel rooms with HOTstream Hospitality Suite.

Guests are used to having the latest technology at home, so they are expecting a far more sophisticated solution from hotels.

HOTstream 3D is the ideal solution for VIP rooms, villas and suites to differentiate above expectation the VIP guest experience.

HOTstream 3D is offered through the central HOTstream headend without the need for additional hardware. The same headend is used to service both 3D and non 3D rooms

A variety of 3D content is already in place: movies, documentaries, 3D live channels.
